

Steven A. Rogers, Ph.D.
Clinical Neuropsychologist, PSY 21463
Westmont College, Department of Psychology
955 La Paz Road
Santa Barbara, CA 93108
(805) 565-6818 sarogers@westmont.edu

EDUCATION

- 1998-2004 Fuller Theological Seminary, Graduate School of Psychology (APA-accredited)
Ph.D. Clinical Psychology - 2004
- 1998-2003 Fuller Theological Seminary, Graduate School of Theology
M.A. Theology – 2003
- 1998-2000 Fuller Theological Seminary, Graduate School of Psychology (APA-accredited)
M.A. Clinical Psychology – 2000
- 1993-1997 Eastern Nazarene College
B.S. Clinical Psychology, summa cum laude

CURRENT ACADEMIC AND CLINICAL POSITIONS

- 2006-present **Westmont College, Department of Psychology, Santa Barbara, CA**
Professor of Psychology

Teach undergraduate courses in Clinical and Counseling Psychology, Clinical Neuropsychology, Abnormal Psychology, Personality, Individual Research, General Psychology, and Senior Clinical Practicum; advise and mentor students; supervise practicum students; supervise student research, including chairing four Major Honors projects; operate a neuropsychological research laboratory investigating (a) cognitive and emotional functioning of those with neurological illnesses (e.g., Alzheimer's and Parkinson's disease) and (b) religiousness among those with schizophrenia and neurological disorders.

- Facilitated multiple student journal publications, five student book chapters, and over 100 student poster presentations at national psychology conferences
- Served as department chair 2014-2017
- Across courses, received an overall rating of 4.6 out of 5 for effectiveness as an instructor

2007-present **Hope Counseling Center, Santa Barbara, CA**
Clinical Psychologist and Neuropsychologist

Provide individual and couples psychotherapy to adults and adolescents struggling with mood and anxiety disorders, relational difficulties, and personality disorders; conduct neuropsychological, personality, and educational assessments; engage in treatment planning and service coordination; provide consultation and supervision to marriage and family therapists on staff.

2021-present **Link Neuroscience Institute, St. John's Hospital, Oxnard, CA**
Neuropsychologist

Conduct neuropsychological evaluations for adults with neurological disorders (e.g., Alzheimer's disease, Parkinson's disease, epilepsy, strokes); score neuropsychological profiles, compose reports, and participate in interdisciplinary treatment team; provide supervision for undergraduate psychometricians.

2008-2020 **Pacific Neuroscience Medical Group, Oxnard, CA**
Neuropsychologist

Provide neuropsychological evaluations for adults with neurological disorders; create neuropsychological profiles, compose reports, and collaborate with interdisciplinary treatment team; provide professional talks on Alzheimer's disease, Parkinson's disease, and other neurological disorders to larger community; provide weekly supervision for graduate and undergraduate psychometricians.

- Manage a neuropsychology research lab, including supervising undergraduate students and generating over 30 presentations at national conventions.

OTHER TEACHING EXPERIENCE

2002-2003 **Azusa Pacific University, Department of Psychology, Azusa, CA**
Adjunct Faculty, Instructor of Statistics

Teach an undergraduate course on applied statistics, including descriptive and inferential statistics; design all course curricula and lectures; create multimedia presentations, including videos, PowerPoint slides, guest lectures, and statistical software; grade all student exams and projects.

- Received an average rating of 4.8 on a 5-point scale of overall excellence as an instructor

2001-2002 **Fuller Theological Seminary, School of Psychology, Pasadena, CA**
Clinical Supervisor

Supervise graduate students in client-centered therapy; conduct weekly didactic sessions on individual therapy, therapeutic principles and techniques, and the

integration of religion and psychotherapy; direct weekly process groups; supervise the therapeutic services of six students through weekly individual supervision and case management; participate in weekly supervision training.

- Consistently received the highest rating among supervisors for clarity, ability to foster growth and clinical development, professionalism, and openness.

1999-2002 **Fuller Theological Seminary, School of Psychology, Pasadena, CA**
Teaching Assistant for Psychometric Theory

Annually assist with a graduate course on psychometric theory, which included statistics, psychological test construction, and validity and reliability assessment; provide two lectures; offer weekly tutoring and review sessions; score student exams, essays, and projects.

- Received an average student evaluation rating of 8+ (9-point scale)

OTHER CLINICAL EXPERIENCE

2008-2015 **Psychology Assessment Center, University of California, Santa Barbara**
Department of Counseling, Clinical, and School Psychology
Clinical Supervisor

Supervise graduate students' neuropsychological evaluations for children, adolescents, and adults with ADHD, learning disabilities, and mood and relational disorders; provide didactic sessions addressing neurological and psychological disorders; conduct patient interviews and supervise student scoring of neuropsychological profiles; help students integrate clinical interview, psychological testing, and research results to compose reports for personality, academic, and neuropsychological assessments.

2004-2006 **UCLA Neurology Department & Semel Institute for Neuroscience and Human Behavior, Los Angeles, CA**
Chief Neuropsychology Fellow

Conduct neuropsychological evaluations for adults with cognitive disorders, including Alzheimer's disease, FTD, strokes, and epilepsy; conduct outpatient and inpatient evaluations for medical, psychiatric, and neurological disorders; compose reports and provide patient feedback; participate in interdisciplinary diagnostic teams; supervise extern trainees

- Completed several research projects exploring the cognitive sequelae of epilepsy and the neuropsychiatric phenotype of various dementia syndromes.

2005–2007 **Psychological Assistant (CA. Registration PSB-31280)**

Pasadena, CA

Supervisor: Nancy Vogt, Ph.D.

Provide psychodynamic and cognitive-behavioral therapy to a diverse population of adults and adolescents struggling with affective disorders, relational difficulties, and personality disorders; conduct psychological assessments and diagnostic interviewing; engage in treatment planning and service coordination; offer crisis intervention; participate in weekly object-relations supervision and case coordination.

2003-2004 **VA Puget Sound Healthcare System, American Lake Division, Tacoma, WA**

Psychology Internship (1900 hours)

First Rotation: *Geriatric Research, Education, and Clinical Center*

Provide neuropsychological assessment to patients with dementia, Alzheimer's disease, and other memory disorders; compose reports and provide patient feedback; participate in interdisciplinary clinical teams; coordinate psychological services for comorbid conditions

- Conduct research examining the effect of estrogen on executive functioning and attention in the various stages of dementia.

Second rotation: *Neuropsychology/Acute Inpatient Mental Health*

Utilize a hypothesis approach to assess strokes, head injuries, and multiple sclerosis; provide brief individual and group therapy for patients with serious mental illness; write neuropsychological reports and offer consultation to patients; collaborate with multidisciplinary treatment teams composed of social work, pharmacy, psychiatry, and neurology.

Third rotation: *Addictions Treatment Center*

Conduct process-oriented and psychoeducational groups, including dialectical behavioral therapy and relapse prevention; conduct individual, interpersonal therapy for clients with concomitant legal problems and disorders of addiction, mood, and personality; provide comprehensive case management; participate in mainstream addictions and dual diagnosis treatment teams; provide statistical consultation for two research projects.

2002-2003 **VA Long Beach Healthcare System, Long Beach, CA**

Pre-Internship (870 hours)

First Rotation: *Psychiatric Evaluation and Treatment Services (PETS)*

Provide short-term therapy and psychoeducation to veterans; offer cognitive-behavioral and object-relational treatment for substance abuse, PTSD, and body dysmorphic disorders; conduct PTSD and anger management groups; provide diagnostic interviewing and assessment.

Second rotation: Primary Care

Offer cognitive-behavioral therapy to veterans with coexisting medical concerns; coordinate psychological and medical services; provide neuropsychological testing and psychometric assessment; participate in interdisciplinary cardiac rehabilitation treatment teams.

Third Rotation: Women's Health Clinic

Provide cognitive-experiential psychotherapy to women veterans with sexual trauma, PTSD, and personality disorders; conduct a stress management group; provide psychological evaluation and assessment, engage in crisis intervention and coordination of medical resources.

2002–2003 **Psychological Assistant (CA. Registration PSB-29196)**

Pasadena, CA (275 hours)

Supervisor: Mary K. Rotzien, Ph.D.

Provide psychodynamic and cognitive-behavioral therapy to a diverse population of adults, adolescents, and couples struggling with affective disorders, relational difficulties, and personality disorders; conduct psychological assessments and diagnostic interviewing; engage in treatment planning and service coordination; offer crisis intervention; participate in weekly object-relations supervision and case coordination.

2001-2002 **Neuropsychiatric Institute, UCLA Medical Center, Los Angeles, CA**

Clerkship (730 hours)

Supervisor: Karen Miller, Ph.D.

Provide inpatient and outpatient neuropsychological assessment for clients with seizure disorders, dementia, and traumatic brain injuries; conduct learning disability assessment, projective testing, and clinical interviewing for adolescents and adults; score test results and write research reports and psychological evaluations; provide statistical analyses and manuscript writing for a study examining the language functioning of individuals at risk for developing AD.

2000-2001 **Fuller Psychological and Family Services (FPFS), Pasadena, CA**

Psychology Practicum II (294 hours)

Supervisor: Karen Miller, Ph.D.

Provide psychodynamic and cognitive therapy for adults and adolescents with relational disorders, mood disorders, anxiety disorders, and issues of sexual identity; co-lead stress management and psychoeducational therapy groups; afford psychological assessment using the MMPI-2, Rorschach, and SCL-90-R; conduct intake surveys and maintain a referral network.

- Awarded *Practicum Student of the Year* for clinical skills, professionalism, and responsiveness to training.

1999-2000 **Inter-Community Alternatives Network (I-CAN), Pasadena, CA**

Psychology Practicum I (371 hours)

Supervisor: Kevin O' Leary, Ph.D.

Conduct family relations, social skills, and psychodynamic process groups for those with mental illness; provide individual treatment using object-relational and cognitive-behavioral orientations; perform intake assessments and case presentations; supervise weekend activities; offer crisis intervention; prepare psychosocial rehabilitational curricula.

OTHER RESEARCH EXPERIENCE

2000-2004 **Neuro-Imaging Lab, West LA VA Healthcare System, Los Angeles, CA**

Research Assistant I

Supervisor: George Bartzokis, M.D.

MRI evaluation of white and gray matter concentrations in normals and patients with dementia, mental illness, and age-related deficits; image analysis, coronal tracing, and measurement of neuroanatomical structures; reliability training of lab employees; coordination of two research projects; data management and statistical analyses.

1999-2004 **Fuller Theological Seminary, School of Psychology, Pasadena, CA**

Research Assistant

Supervisor: Jeffrey P. Bjorck, Ph.D.

Coordinate three experimental studies examining the effect of illusions of control on behavioral persistence; recruit participants and operate an experimental lab; supervise two research assistants; construct experimental manipulations and multi-scale questionnaires; execute data entry and multivariate statistical analyses; participate in a research team to compose manuscripts and poster presentations.

- Coordinated an additional project examining the relationship between religious coping, depression, and life satisfaction

1999-2000 **University of California, L.A., Diagnostic and Psychopathology Unit**

Staff Research Associate I

Supervisor: Joseph Ventura, Ph.D.

Conduct research examining the accuracy of memory, substance abuse reporting, and neurocognitive correlates within a longitudinal assessment of those with mental illness; assess the reliability and validity of a computerized version of the SCID (CAS-CV); BPRS and SCID training and administration; analyze novel technologies in diagnosis and symptom assessment.

1998-2000 **Inter-Community Alternatives Network, Pasadena, CA**
Research Coordinator
Supervisor: Leslie Tepper, Ph.D.

Coordinate four research projects; administer quantitative and qualitative surveys; supervise two research assistants; recruit participants and administer survey measures; establish and maintain networking with County Mental Health facilities; execute data entry and perform comprehensive statistical analyses; design measurement apparatus; compose research results and manuscripts for publication.

- Coordinated projects examining religious coping among the persistently mentally ill and assessing the reliability, validity, and factor structure of the SCL-90 for persistent mental illness

1997-1998 **University of Vermont, Department of Psychiatry, Burlington, VT**
Research Assistant
Supervisor: Warren Bickel, Ph.D.

Conduct behavioral and physiological experimental sessions; operate psychophysiological testing station; recruit and screen study participants; conduct comprehensive literature searches and article evaluations; collect data and perform inferential statistical analyses; construct project protocol; maintain grant budgeting and international research contacts.

- Co-authored research assessing the discriminability between benzodiazapenes and other sedatives
- Performed secondary analysis assessing post-treatment relapse to drug use
